## CARDIOD CONDENSER MICROPHONE

### EXCEPTIONAL PERFORMANCE FOR ANY PERFORMER

The IVA-912 is a professional class microphone with versatile features that are ideally suited to a wide variety of vocal and sound reinforcement applications. Wide range, smooth frequency response and clean crisp sound reproduction make it a valuable tool, both for recording and live performance uses. Its tight polar pattern focuses on a desired sound source while reducing off-axis coloration and background noise to permit high amplifier gain before feedback. Affordable high performance.

### IVA 912

Speech & Stage Microphone
