

MiX6FXU / MiX4FXU

The IVA MiX series compact analog mixer is the perfect choice for ultra-portable mixing setups, delivering versatile features and professional sound quality in a small footprint. With a high-performance op-amp at its core, the Mix4FXU ensures your mixes remain clean, transparent, and articulate. Its precision-designed mic preamps capture every nuance of your source, with warm, natural low end and smooth, detailed highs.

Equipped with onboard digital effects, switchable phantom power, a pad switch, 2-band EQ, and LED metering, the Mix4FXU is ready to handle a wide range of applications — from live gigs to studio use. Built on IVA's dedication to accessible professional audio, this mixer brings advanced features from larger consoles into a compact, easy-to-use format.
