

rX MK2 Series

2-ways Loudspeaker

RX MK2 is the second generation of the phenomenally successful RX series of portable loudspeakers. Building on the best of what made the original series an industry icon, the RX MK2 lineup offers a range of next-level features and functionality and 10", 12" and 15" two-way models. Enclosure design, ergonomics and versatility were all a priority in RX MK2 development, resulting in a sleek -yet solid blend of form and function that evolves elements in the first - generation model while incorporating key improvements to enhance the user experience.
