

Professional Dynamic Microphone

EXCEPTIONAL PERFORMANCE FOR ANY PERFORMER

IVA 2700

Stage / Speech & General Microphone

The IVA 2700 professional dynamic microphone is designed for a wide variety of vocal and sound reinforcement applications including: conference, public address, studio, broadcast, video and others. Its consistent and reliable sound with enhanced proximity effect and ambient noise rejection makes it a valuable tool both for recordings and live performances.

This microphone boasts of a durable construction and is built to endure the rigors of tours and live performances. It comes in an all metal case with built-in reed type On/Off switch for more convenient control of the microphone. The switch has a silent type operation and can be locked in the "On" position to prevent accidental turn-off during operation. An efficient rubber shock-mount system minimizes handling and cable noise, while a multi-stage integral breath shield effectively reduces wind noise and speech produced "popping sounds" when performers work extremely close. It has a professional XLR (male) type connector for an easy connection to the XLR (female) type cable connector.

Accessories:

6003
Holder

6403
Φ 6.3 nickel-plated plug
and cannon XLR

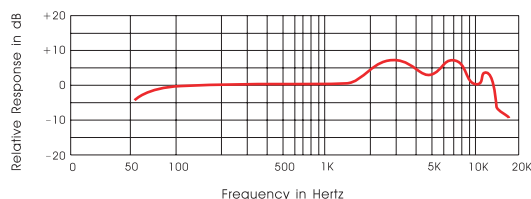

Specifications:

- Element : Dynamic Moving Coil
- Polar Pattern : Supercardioid
- Frequency Range : 50 Hz ~ 16,000 Hz
- Sensitivity : -72 dB \pm 3 dB (0 dB = 1V μ bar @ 1 KHz)
- Impedance : 600 Ω \pm 30% (@ 1,000Hz)
- Dimensions : Φ 48 x 181mm
- Switch : On/Off (Reed Switch)
Output Connector : 3 Pin XLR (male)
- Material : Zinc Die Cast
Weight : 310 grams

Features:

- Dynamic Microphone
- Supercardioid polar pattern - provides high degree of isolation
- Built-in On/Off reed type switch
- Integral multi-layer breath/wind filter
- Low handling noise
- High-quality vocal pick-up for live performances
